EDUCATION	
• Amrita Vishwa Vidyapeetham <i>B.Tech in Computer Science and Engineering (2023 – Present) ; GPA: 7.92 / 10</i>	Ettimadai, Coimbatore
• Palghat Lions School (CBSE) <i>Class XII (2023) ; Percentage: 87.4%</i>	Palakkad, Kerala
• Palghat Lions School (CBSE) <i>Class X (2021) ; Percentage: 95.2%</i>	Palakkad, Kerala

SKILLS SUMMARY	
• Languages: Python, C/C++, Java, SQL, HTML/CSS	
• Frameworks & Libraries: PyTorch, OpenCV, Pandas, NumPy, Matplotlib, Scikit-learn, Hugging Face Transformers	
• AI/ML: Deep Learning, Computer Vision, CNNs, Transformers, Model Training & Evaluation, Feature Engineering, Data Preprocessing	
• Tools: Git, GitHub, Jupyter Notebook, VS Code, Google Colab	
• Soft Skills: Research Mindset, Problem Solving, Leadership, Attention to Detail, Clear Verbal & Written Communication, Time Management, Adaptability	

EXPERIENCE	
• Metatron Cube Software Solutions <i>Frontend Developer Intern</i>	Jun 2025 – Aug 2025
◦ Developed responsive UI components using HTML, CSS, and JavaScript.	
◦ Gained hands-on experience in version control using Git and GitHub.	
• Magilam Foods <i>ML Costing Lead Intern</i>	April 2026 – Present
◦ Selected for internship opportunity with Magilam Foods as part of the product development team.	
◦ Worked as ML Costing Lead, contributing to machine learning-based costing and pricing analysis for product requirements.	

PROJECTS	
• HireReady - AI-Powered Interview Readiness Scorer Developed an AI-driven web platform that evaluates interview readiness across Technical Skills, Resume Quality, Communication, and Portfolio dimensions in under 2 minutes. Integrated Groq Llama 3.3 70B API for domain-adaptive scoring, generating personalized Interview Archetypes, hidden strengths analysis, and a 7-day action plan. Built GitHub portfolio analyzer using GitHub REST API to fetch real repository stats, language breakdowns, and project data for accurate portfolio scoring. Supports 10 career domains (Tech, Design, Marketing, Finance, Law, etc.) with dynamic skill assessments tailored to each field using AI prompt engineering . Built using Next.js 14 , TypeScript , Tailwind CSS , Framer Motion , and Groq SDK ; deployed on Vercel .	
• Forever E-Commerce Platform Developed a full-stack responsive e-commerce web application using React , Node.js , Express.js , and MongoDB . The platform features a user storefront for browsing apparel and a separate admin dashboard for inventory management. Integrated dual payment gateways using Stripe and Razorpay alongside Cash on Delivery workflows. Optimized backend latency by implementing parallel image uploads to Cloudinary using asynchronous concurrency, and secured the system with JWT-based authentication, password hashing, and role-based access control.	
• AI Resume Analyzer Built a full-stack AI-powered resume analysis web application using Next.js , TypeScript , and Groq AI (Llama 3.3-70B) . The system parses PDF resumes, detects the candidate's professional domain, computes an ATS compatibility score with a detailed breakdown, and generates personalized improvement suggestions. Features include optional Job Description matching with keyword gap analysis, hiring likelihood prediction, and a downloadable analysis report. Deployed with a glassmorphism UI built using Tailwind CSS and React .	

PUBLICATIONS	
• Empowering STEM Education Through Robotics: Tools, Applications, and Challenges. Book Chapter in <i>Computer Vision and Robotics</i> , Springer Nature, pp. 128–140, 2026.	
• A Comparative Performance Analysis of Classical Genetic Algorithm on Solving Different 0/1 Knapsack Problem Instances. In <i>Proceedings of the 2026 International Conference on AI-Driven Innovations & Applications (IC-AIDA)</i> , IEEE, Bangalore, India	

CERTIFICATIONS	
• Introduction to Cyber Security — Cisco Networking Academy (Jan 2026): Certification covering core cybersecurity concepts including online threats, network security, and secure computing practices.
